DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 1, there terms “especially” and “etc.” render the claim indefinite in that the metes and bounds of the claim can not be determined.

In claim 1, line 3, it is unclear exactly what element the phrase “an which is...” refers to in the context of the claim language.

In claim 1, line 4, “its open position” lacks antecedent basis.

In claim 1, line 6, “or the like” renders the claim indefinite in that the metes and bounds of the claims cannot be determined.

In claim 1, line 21, “i.e.” renders the claim indefinite.

In claim 1, lines 34, 36, and 60, “namely” renders the claim indefinite.

In claim 1, line 58, the phrase “is turned by the control unit...” is not fully understood in the context of the claimed invention. How and by what exact structure is this achieved?

Claim Objections

3. Claims 4-27 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim 3. See MPEP § 608.01(n). Accordingly, the claims 4-27 have not been further treated on the merits.

Allowable Subject Matter

4. Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
